The product also includes investment options, corresponding to the Posta ValorePiù Separately Managed Account and some external funds, which do not promote environmental and/or social characteristics.

For further information on the promotion of the environmental and/or social characteristics of the investment options, please refer to the Sustainability-related disclosures available through the above mentioned links.

No sustainable investment objective

This financial product promotes, among others, environmental and/or social characteristics but does not have sustainable investment as its objective. Specific information regarding the possible realization of sustainable investments and compliance with the principle of not significantly harming any sustainable investment objective of each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Environmental or social characteristics of the financial product

The promotion of environmental and/or social characteristics is achieved through investment in investment options in accordance with Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019. Specific information regarding the environmental and/or social characteristics of each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Investment strategy

Specific information on the investment strategy of each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Proportion of investments

Specific information regarding the investment shares of each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Monitoring of environmental or social characteristics

The methods for monitoring environmental and social characteristics are defined at the individual investment option level. Specific information regarding the methods for monitoring the environmental and social characteristics of each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Methodologies

The methodologies related to environmental and/or social characteristics are defined at the individual investment option level. Specific information on the methodologies related to the environmental and social characteristics of each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Data sources and processing

The sources and methods of data processing are defined at the individual investment option level. Specific information on the sources and methods of data processing for each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Limitations to methodologies and data

Any limitations of the methodologies and data are provided at the individual investment option level. Specific information on any limitations of the methodologies and data for each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Due diligence

Due diligence policies are adopted at the individual investment option level. Specific information on the due diligence policies for each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Engagement policies

The use of engagement policies, if applicable, is provided at the individual investment option level. Specific information on the use of engagement policies for each investment option can be found in the respective “Sustainability-related disclosure,” published on the websites of the Management Companies listed above.

Designated reference benchmark

The use of an index as reference benchmark, if any, shall be provided for at the level of individual investment option. Specific information on the possible use of an index as reference benchmark for each investment option is available in the relevant “Sustainability-related disclosure”, published on the websites of the Management Companies listed above.
