

A NETWORK THAT UNITES THE COUNTRY

Poste Italiane is one of the largest service distribution networks in Italy. Its operations include logistics, mail and parcel delivery, financial and insurance services, payment systems, connectivity and retail energy. With over 160 years of history, almost 120,000 employees, 12,659 Post Offices, €613 billion in financial assets invested and 46 million customers, it is a unique entity in terms of size, recognition, reach and customer confidence.

Poste Italiane closed the first half of 2026 with record revenues of €6.8 billion (+6% y/y), an Adjusted operating profit (EBIT) of €1.8 billion (+7% y/y) and a net profit of €1.2 billion (+4% y/y), ahead of the targets set in *The Connecting Platform* Strategic Plan 2024–2028. In 2025, the Group had an impact on the country's economy, in terms of Gross Domestic Product (GDP), of around €14 billion, employed a total of roughly 182 thousand people and contributed around €2.6 billion to the income of the Public Administration in terms of tax revenue.

The Company is implementing a digital transformation of its infrastructure and organisational processes, which has enabled it to record around 27 million interactions between physical and digital channels each day, thereby consolidating its omnichannel strategy. At the heart of this is Poste Italiane's 'P' app, which provides a single digital access point to the Group's entire range of products and services: as at 30 June 2026, the app had over 18 million total users and over 4 million daily active users, making it the leading app in Italy.

Listed on the Milan Stock Exchange since 2015, Poste Italiane has a free float of 47.03%. Its main shareholders are the Italian Ministry of Economy and Finance (MEF), with a 23.70% stake and Cassa Depositi e Prestiti (CDP), controlled by the MEF, with 28.36%. Silvia Maria Rovere has served as Chairperson since May 2023, Matteo Del Fante as Chief Executive Officer since April 2017 and Giuseppe Lasco as General Manager since February 2024.
